

I am writing to express my opposition to the current proposal to expand the LPFM service. The planned expansion would allow LPFM broadcasts to bump existing FM translator broadcasts off the air. I am a financial supporter of national non-profit radio services K-LOVE and AIR1. These stations provide family-friendly, positive, and uplifting programming. In my area, the only other option for similar programming is a commercial station. That station is more likely to change its programming in response to changing social trends than the national non-profit FM translator services I support. If those services were to go 'off air' in my area, available family-friendly programming would be drastically reduced. In an era when the world and our own society seem so negative, these positive influences are important to the communities they reach. Please do not adopt the proposal to allow LPFM stations priority over FM translator services. Thank you.
